Authorization for this examiner's amendment was given in a telephone interview with Hung H. Bui on December 10, 2004.

The application has been amended as follows:

### ***Reasons For Allowance***

3. Claims 1-15 are allowable over the prior art of record.
4. The following is an examiner’s statement of reasons for allowance: the prior art of record neither teach nor make obvious the claimed limitation of the instant application as a whole as recited in claims 1, 7 and 11 respectively. In particular, the prior art does not teach or suggest the particular sequential process steps for forming a semiconductor device having an NMOS and PMOS with the step of performing an annealing in a nitrogen atmosphere or in a hydrogen atmosphere with water vapor added thereto.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Gardner et al., U.S./6,051,459 and Maddox, III et al., U.S./5,278,085 disclose the similar processes for forming the device.
